TUESDAY, OCTOBER 4, 1887

SIX-PAGE EDITION.

THE whole country knows who Colonel Grant is; knows that he was educated at West Point, as was his father; that his record both in military and civil life is honorable to him; that he has had large experience in public affairs, and that his worth has been testified to by men of all parties. In the face of all this, the pretense is now set up that he is not fit to fill a merely clerical position. Is the nation to be told that Robert T. Lincoln and Frederick D. Grant are to be forever denied the right to hold office because they are the sons of men who rendered invaluable service to country and humanity? Is it to be understood that because a father renders his name illustrious in statesmanship or in war his son must be politically ostracized—cut off from the privileges common to every other citizen? It can be said for both Mr. Lincoln and Colonel Grant that they are as yet under no legal or constitutional disqualification or holding any office of trust or profit to which they may be chosen, neither is there the slightest compulsion resting on any citizen to vote for either of them should they become candidates. It may be suggested, further, that if an obscure lawyer may "grow" from Mayor of an interior town to President of the United States, there is hope for even a son of Abraham Lincoln or Ulysses S. Grant.

LIEUT. ZALINSKI's pneumatic dynamite gun, so successfully tested last week in New York harbor, has proven itself beyond dispute the most destructive agent of modern warfare yet invented. It is capable, too, of a higher development. With two shots it blew into atoms the schooner used as a target at a distance of over a mile. England the same day launched the most heavily plated iron-clad in existence. Her armor is twenty inches thick; but even this formidable defense would have to yield before the dynamite gun. In the opinion of some experts iron-clads have had their day and the Zalinski gun is destined to revolutionize offensive as well as defensive operations in war. But these experts should not be too sanguine. It was only the other day that an inventor took out a patent for a coat of armor that he claims is absolutely impervious to shot, and which removes the principal difficulty of defensive armor, its great weight, which impedes the maneuvering of the iron-clad so begirt. The new armor, while but a few inches thick, is said to be bullet-proof. If a test should prove this to be the fact, it will only confirm the maxim that discovery in defensive armor keeps pace with invention in offensive armament.

THE Republican anti-saloon movement in New York has borne fruit in a declaration in the Republican platform adopted on Wednesday which ought to satisfy all true friends of temperance reform. Besides the question, what is the end to be ultimately attained in reference to the liquor traffic? there is another question, What is practicable at the present time? Theories are excellent, but common sense must not be ignored.

THE PUBLIC BUILDING.

M. E. Gilmore, of Reno, Nevada, has submitted proposals to Architect Berrett, of the U. S. Treasury, for the completion of the public building at Carson City. There was originally \$100,000 appropriated by Congress for this work, but the purchase of grounds, specifications, salaries of officers, etc., have already eaten up \$15,000 of that amount, so that there is only \$85,000 to go and come upon. Ex-United States Architect Bell has charge of this proposition, and he never was any too indulgent with Nevada. He we hope that as he has been fired out of the position he occupied so long under a Republican administration, that he will be a little lenient to the Reno man. Mr. Gilmore went below last night with his plans, and proposes to submit them to the best of judges under the specifications. All bids for this contract must be (with samples of material to be used) submitted on or before 12 o'clock, October 11, 1887.

—Advices from Honolulu state that at the election held September 12, all the members of both Houses, with perhaps the exception of two representatives in remote districts, were supporters of the new Constitution and ministry.

NEWS OF THE DAY.

Brutal Doings of British Evictors in Iowa.

AGED WOMEN CAST ADRIFT.

The Condition of New York's Cholera Patients.

SIXTEEN PERSONS DROWNED.

Items of Interest From all Parts of the World.

[PRESS DISPATCHES TO THE GAZETTE.]

The Sharon Bribery Case.
SAN FRANCISCO, Oct. 2.—Judge Terry, in an interview at his home in Fresno, in reference to the charges recently made to bribe Judge Sullivan of the Superior Court, during the trial of the Sharon case, said: "It was told by a gentleman that this occurred, and when anybody has a right to demand the name of my informant, I shall not be backward in giving it." Judge Terry also remarked that although in his affidavit he had not named the person who had attempted to bribe Judge Sullivan, still, if Judge Evans desired to "put the clothes on" he could do so. Judge Sullivan refuses to make any statement about the matter beyond the letter which he has already written to Judge Evans, in which he states that no proposition on the subject indicated in Terry's affidavit was ever made to him by Judge Evans.

Sixteen Lives Lost.
DETROIT, Oct. 4.—The Propeller California sunk at 10 o'clock this morning off Gros Cap, Lake Michigan. Sixteen lives were lost. The California left Chicago Saturday night and was struck by yesterday's gale in Lake Michigan. Her hold soon filled, extinguishing the fire, and at about 1 o'clock, when off St. Helena, she broke up and in a few minutes went down. Seven of the crew reached Point Lee Barbes in a life boat in an almost lifeless condition.

Wyoming's Condition.
WASHINGTON, Oct. 4.—The Governor of Wyoming Territory, in his annual report to the Secretary of the Interior, states that, contrary to the prevalent belief, the Territory is adapted for farming purposes as well as for stock raising. The Governor estimates the population at 85,000. Owing to the fact that railroad lands are assessed this year for the first time, the taxable values exceed last year by over a million dollars.

A Priest Principal of a Public School.
PITTSBURG, Pa., Oct. 3.—At an election of Principal of a ward school to-night, Rev. Father McTigue, a Roman Catholic priest, was chosen. The election caused considerable discussion in religious circles, as it is believed to be the first time on record that a Catholic priest has ever been called upon to fill a similar position in the public schools.

The Champion.
NEW YORK, Oct. 4.—The Volunteer left for Marble Head this morning. She was made the recipient of salutes of all kinds, including a salvo of cannon, while tugs and steamboats tooted after the old-time way. The crowd in Brooklyn also joined in, which was continued all along East River, until the peerless craft had passed almost out of sight.

Reception to Mrs. Cleveland.
ST. LOUIS, Oct. 4.—The reception to Mrs. Cleveland to-day, given by Mrs. Mary Scanlan, was attended by about 150 guests, the most fashionable and beautiful women of this city. The ladies were presented to Mrs. Cleveland by Mrs. Scanlan, and she pressed their hands and bade some pleasant word for each of them as they passed.

Mediterranean Rainfall.
NEW YORK, Oct. 3.—A cablegram from Denis, dated the 30th ult., gives the following upon the subject of Valencia rains: "It has been raining for a week, and the loss to the crop is estimated at 10,000 tons. Cannot get any stock, as the market is bare, and is expected to so continue for some time."

A Billiard Tournament.
NEW YORK, Oct. 4.—At a meeting of the National Billiard Association today, arrangements were made for a big tournament between Sexton, Sloan, Daley, Carter and Schaeffer. The Daley, Carter and Schaeffer match is to be played in two series, the first in New York in November, and the second in Chicago in December.

Trembling Greece.
ATHENS, Oct. 4.—A shock of earthquake was felt throughout Greece at 1 o'clock this morning. The disturbance was strongest on the northern and southern shores of the Gulf of Corinth.

The Farmers' Alliance.
MINNEAPOLIS, Oct. 4.—The National Farmers' Alliance began its seventh annual convention here this morning, with fifty delegates present. The Secretary reports 1,000 more alliances added since last session, and that there are 600,000 members.

Seizing Diamonds for Taxes.
BUTTE, Mont., Oct. 3.—Alvin Joslyn's diamonds were seized by the Assessor to-day for \$900 taxes. Davis admitted to the Assessor that he never paid taxes anywhere on them. The feeling here is strongly against the Assessor, as it is likely to injure the show business and prevent troupes coming here.

The Cholera in New York.
NEW YORK, Oct. 4.—Quarantine authorities report to-day four additional deaths among the cholera patients on Swinburne Island. Total, 14 deaths. There are ten others sick with the disease.

More Blood on the Moon.
NEW YORK, Oct. 4.—The Tribune will say to-morrow that the Socialists and Anarchists are determined to hold

a meeting in Union Hall on Wednesday night, in spite of police interference, and that a conflict and a repetition of the Haymarket tragedy in Chicago are highly probable.

British Evictors in Iowa.
WASHINGTON, Oct. 4.—The General Land Office is in receipt of information that a British syndicate, which is said to have purchased a large tract of land in Iowa from the McGregor Western Railway Company, is mercilessly evicting settlers, the title to the land being in dispute in the State courts. A settler writes: "Women over 60 years of age, sick in bed, have been taken by six men and carried out into a driving storm. Delicate women have had their hands tied with cords till the flesh was bruised, and then dragged, shrieking from their homes. Children have been born at sight of a band of evictors. Strong men have been run down by ruffians on horseback and then handcuffed and dragged from their little possessions. I might go on and multiply instances where the Sheriff, with a writ of ejectment in one hand and a British contract in the other, gave these poor people their choice between these two evils—which would they take?" Affidavits of cruelty practiced are being collected, says this writer, for use at Washington next Winter, and will be read in both Houses of Congress. They are expected to create a sensation when the people of the East are brought fully to realize what native American pioneers are suffering from the hands of invaders.

He Didn't Look Like a Seifer.
NEW YORK, Oct. 4.—A Saturday meeting of the B. & G. Telegraph Co. was held this afternoon. The purpose of the meeting was to elect five Directors. The election resulted in the choice of D. H. Bates, R. B. Garrett, E. R. Bacon, E. A. Lisle and O. E. M. Bunce. John E. Zieblin, who represented President Bates, was asked if the sale of the telegraph company to the Western Union would come up at the meeting. He replied: "It will not, for it cannot. I am a large stockholder in the telegraph company, and I don't look as though I had sold out, do I?"

The President's Tour.
ST. LOUIS, Oct. 4.—To-day's program for the entertainment of the President comprehends a reception, a boat ride to the fair grounds, a gorgeous evening pageant and ball, and the departure for Chicago. The reception over the President's hurried trip to a carriage through a side entrance and was driven to the excursion boat. At the same time Mrs. Cleveland left the hotel and was aboard the boat a few minutes later, and then the vessel steamed down the river for a trip to Jefferson Barracks.

THE ORMSBY FAIR.
An Assured Success—The Program for To-morrow.

SPECIAL TO THE GAZETTE.
CARSON, Oct. 4.
The District Fair promises to be a great success. The weather is delightful, and the stock exhibit all that could be desired. Excellent time was made in yesterday's racing contests. The speed program for to-morrow is as follows:
Running race, mile d sh. Entries—Alcatraz, Avondale and Lige Clark.
Pacing race, three in five. Entries—Sam Lewis, Prince, Pocahontas and Wallace G.
A stock parade will also take place, also the ladies' fies for all tournament.
On Friday there will be a twenty-five mile running race. The riders are Buster, of California, and Buck Murphy, of Genoa. Each rider will have five horses.

THE SUSANVILLE FAIR.

Susanville in Holiday Attire—A Fine Stock Exhibit—Baseball.
Editor Gazette—SIR: The Fair that commences here to-morrow has every prospect of being a success, every effort having been put forth by the Association to make it such. The track and grounds lie about half a mile east of town on a beautiful flat which, in the nature of its soil, makes it one of the best locations for a race track that could be found anywhere in the State. The buildings erected are spacious, affording ample room for exhibits, while from the grand stand an unobstructed view is obtained of the entire track. A large number of entries have been made for the different races and most of the horses are on the ground. The exhibit of blooded stock and horses will be quite large and interesting. The display at the Pavilion will not be as fine and interesting as it would have been had not the late frosts of Spring destroyed the entire fruit crop of this section.

Susanville to-night presents a holiday appearance, the fronts of all the business houses on Main street being decorated with evergreens and national flags. The hotels are fast filling up with arrivals from all sections, and the streets are swarming with pedestrians. Music is heard in the various saloons and gambling of all descriptions is in full blast, reminding one of the long past prosperous mining days.

This afternoon a game of baseball was played by the Lassen nine, of Susanville, and the Rough and Ready, of Greenville, Plumas county, for a purse of \$100. The Susanville boys got away with the game and purse, the score standing 20 to 10. The weather is quite warm during the day time and the promises now are fine for a week at least of enjoyable weather. RIX.
Susanville, Oct. 2, 1887.

—Mile. Almoe, the singer, died in Paris yesterday from the effects of a surgical operation.
—John B. French, of Nebraska, a well known temperance lecturer, died suddenly in Boston last night, from the effects of a fit.

DR. FISHERMAN'S CARBOLIZED ALKALINE LOTION IS TO-DAY AHEAD
of all other preparations for the mercurial care of "STUCK." As an external remedy
it will be found unequalled for application to Sprains, Sores, (new or old), Ailments
Sores, Bruises, Galls, Swellings, Strains, Rheumatism, Mange, Itch and
Skin Diseases. It will strengthen and make straight weak knees and ankles. It is
invaluable as an internal remedy for coughs, colds, congestion or fever, and we sin-
cerely believe it is just the right remedy to use during the BRUISING SEASON, as
it will at once take out the fire and seal the wound over. We believe it will pre-
vent the nicks and brands from becoming fly-blown. This lotion does not contain
tar, consequently does not tinge the coat for hours. Price, ONE DOLLAR
per full quart bottle, which makes half a gallon of lotion. Please give it a trial.
Valuable Testimonials.
SAN FRANCISCO, Aug. 29th, 1887.
Messrs. LYNDE & HUGH-GUTHRIE: I have used Dr. Fisherman's Carbolyzed
Alkaline Lotion, and I take pleasure in recommending it to the public. I consider it
the best remedy that I have ever used in my long experience of the care of horses.

Reno Evening Gazette
TUESDAY, OCTOBER 4, 1887
DULUTH.
Bill Nye's Description of Lake Superior's Surroundings.
Duluth has been joked a good deal,
but she stands it first rate and takes
it good naturedly. She claims 16,
000 people, some of whom I met at
the opera house there. If the rest
of the 16,000 are as pleasant as those I
conversed with that evening, Duluth
must be a pleasant place to live in.
Duluth has a very pleasant and
beautiful opera house that seats
1,000 people. A few more could have
elbowed their way into the opera
house the evening that I spoke there,
but they preferred to suffer on at
home.
Lake Superior is one of the largest
aggregations of fresh water in the
world, if not the largest. When I
stop to think that some day all this
cold, cold water will have to be ab-
sorbed by mankind, it gives me a
cramp in the geographical centre.
Around the west end of Lake Superior
there is a string of towns which
stretches along the shore for miles
under one name or another, all wait-
ing for the boom to strike and make
the northern Chicago. You cannot
visit Duluth or Superior without feel-
ing that any moment the tide of trade
will rise and designate the point
where the future metropolis of the
northern lakes is to be. I firmly be-
lieve that this summer will decide it,
and my guess is that what is now
known as West Superior is to get the
benefit. For many years destiny has
been hovering over the west end of
this mighty lake and now the favored
point is going to be designated.
Duluth has past prosperity and ex-
pensive improvements in her favor,
and in fact the whole locality is go-
ing to be benefited, but if it had a
block in West Superior with a roller
rink on it, I would wear my best
clothes every day and claim to be a
millionaire in disguise. Ex-President
R. B. Hayes has a large brick block
in Duluth, but he does not occupy it.
Those who go to Duluth hoping to
meet Mr. Hayes will be bitterly dis-
appointed.
The streams that run into Lake
Superior are alive with trout, and
next summer I propose to go up there
and roast until I have so thoroughly
saturated my system with trout that
the trout bones will stick out through
my clothes in every direction and
people will regard me as a beautiful
toothpick holder.
Still there will be a few left for
those who think of going up there.
All I will need will be a barefoot
to feed Albert Victor and myself from
day to day. People who have never
seen a crowned head with a peered
nose on it are cordially invited to
come over and see us during office
hours. Albert is not at all haughty,
and I intend to throw to him my
reserve this summer also—for the
time. P. Wales' son and I will be
far from the cares that crowd so thick
and fast on greatness. People who
come to cedar bark wigwam to show
us their mosquito bites will be re-
ceived as cordially as though no great
social chasm yawned between us.
Many will meet us in the depths of
the forest and go away thinking we
are just common plugs of whom the
world wots not; but there is where
they will fool themselves.
Then when the season is over we
will come back into the great main-
stream of life, he to wait for his grand-
mother's overshoes and I to thrill
waiting millions from the rostrum
with my "Tale of the Bronco Cow."
And so it goes with us all. Adown
life's rugged pathway some must toil
on as from daylight to dark to earn
their meagre pittance as kings, while
others are born to wear a swallow-tail
coat every evening and wring tears
of genuine anguish from their audi-
ences.
They tell me some rather wide
stories about people who have gone
up there total physical wrecks and
returned strong and well. One man
said that he knew a young college
student who was all run down and
weak go up there on the Brule and
eat trout and fight mosquitoes a few
months, and when he returned to
his Boston home he was so stout and
well and tanned up that his parents
didn't know him. There was a man
in our car who weighed 300 pounds.
He seemed to be boiling out through
his clothes everywhere. He was the
happiest looking man I ever saw. All
he seemed to do in this life was to sit
all day and whistle and laugh and
trot his stomach, first on one knee
and then on the other.
He said that he went up into the
pine forests of the Great Lake region
a broken-down hypochondriac and
confirmed consumptive. He had
been measured for a funeral sermon
three times, he said, and had never
used either one of them. He knew a
clergyman named Bruley who went
up into that region with Bright's
celebrated disease. He was so
emaciated that he couldn't carry a
watch. The ticking of the watch
rattled his bones so that it made him
nervous, and at night they had to
pack him up in cotton so that he
wouldn't break off a leg when he
turned over. He got to sleeping out
nights on a bed of balsam and spruce
boughs and eating venison and trout.
When he came down in the spring
he passed through a car full of lum-
bermen, and one of them put a warm
wet quid of tobacco in his plug hat
for a joke. There were a hundred of
those lumbermen when the preacher
began, and when the train got into
Eau Claire there were only three of
them well enough to go around to
the office and draw their pay.
This is just as the story was given
to me, and I repeat it to show how
bracing the climate near Superior is.
Remember, if you please, that I do
not want the story to be repeated as
coming from me, for I have nothing
left but my reputation for veracity,
and that has had a very hard
winter of it.—[N. Y. Mercury.]
A schoolboy being asked to define
the word "Admission," said it meant
twenty-five cents. "Twenty-five
cents!" echoed the master, "what
sort of definition is that?" "I don't
know," sulkily replied the boy, "but
I am sure it says so on the advertise-
ment down here at the show."

Let a man learn that everything in
nature, even moles and feathers, go
by law and not by "luck," and that
what he sows he reaps.

The healthfulness of this sunny
city of the San Joaquin is attrib-
uted to its fine atmosphere and even
climate, being free from excessive
heat by day, and from chilly
night winds.
In the mid-summer month, July,
the average temperature at mid-
day was 77.8 degrees, and the
average Summer and Winter ten-
perature is almost identical with
that of Naples, Italy.
Seventeen thousand acres in this
section, which represent a number
of small farms, all with more or
less improvements, including ap-
ple orchards of all kinds of fruit;
almonds and grapes—and this will
be sold, in large or small pieces,
at low figures, and on easy terms.
San Joaquin county is now taking
the lead over all other sections as
a point for sensible, legitimate in-
vestment. Water is certain and in
abundance, as we control 300,000

for the express purpose of watering

From Stockton. The transporta-
tion facilities from Stockton are
equal to those of any interior town
in California, having two lines of
railroad to San Francisco on the
through line for the East, both by
way of Sacramento and Los Ange-

railroads running in the interior.
In addition to these railroad facili-
ties, there are two lines of steam-

only 25 cents for a ride of 120
miles through the most beautiful
scenery in the country.

The Leading Private Educational Institution
FOR BOYS
On the Pacific Coast.
ST. MATTHEW'S HALL
SAN MATEO, CAL.
Thirteen Teachers—Prepares—College—Reputation—Ability.
LOCATION.
This institution, founded in 1880, is situated near the village of San Mateo, which
is noted for its beauty and seclusion; also for the equability and healthfulness of its
climate. It is within twenty miles of San Francisco by rail, and easily accessible
by carriage, and therefore particularly suited to parents in the city who wish their
sons within reach in case of emergency. Trains of the Southern Pacific Company
frequently, allowing visitors to go and return several times daily.
DISCIPLINE.
The Principal exercises a fatherly care and discipline over the pupils, seeking to
influence and kindly lead rather than drive. The military discipline is used in a
modified form, sufficient to secure regular exercise and erect carriage by drill, and
habits of promptness and obedience, with orderly movements in the school-room.
Experience has proved that the military drill, thus modified, is beneficial and not
objectionable. Particular attention is given to the morals and manners of the
pupils by both principal and teachers, it being considered an indispensable part of
their training to make them gentlemen as well as scholars. This is the atmosphere
of the school.
SESSIONS.
The school year is divided into two sessions of twenty weeks each. The Eastern
session begins about January 5th; the Trinity session about July 20th, with a sum-
mer vacation of eight weeks, and a winter vacation of four weeks. Pupils will be
received at any time.

THE BANCROFT COMPANY
FOUNDED 1856. INCORPORATED 1887.

THE HISTORY BUILDING
Upon the site of the Bancroft Building, Market Street, burned April
30, 1886, has been erected the History Building, one of the most elegant
and substantial edifices in San Francisco. Its architecture is
original and artistic, and the structure monumental, being a monument
in consideration of the historical efforts of Mr. Hubert H. Bancroft.
THE HISTORY COMPANY
(Founded 1882. Incorporated 1886)
Organized primarily for the publication of the Historical Works
of Hubert Howe Bancroft, The History Company, occupying premises
upon the second floor of the History Building, does a general book
publishing business, acting at the same time as general agents for
strictly first-class Eastern subscription publications.
THE BANCROFT COMPANY
H. H. BANCROFT, N. J. STONE, W. B. BANCROFT, F. A. COLLEY, and T. A. O. DONALD, all formerly
connected with the house of H. H. Bancroft & Co., have incorporated under the name of The Bancroft
Company, for the purpose of carrying on a Wholesale and Retail Book, Stationery, and Printing
Business, with Agencies of the leading American and European Manufacturers. They have purchased
the entire establishments of W. B. Bancroft & Co., and A. L. Bancroft & Co., stock, outstanding
accounts, agencies, and good will, and have assumed the liabilities of the same. Places of business:
The History Building, Market Street; Printing Office and Manufactory, Donahoe Building, First
Street. It is the purpose of this Company to conduct its business upon a high plane of respectability,
efficiency, and popularity, second to none in the United States. The several departments are thoroughly
systematized, and conducted by able and gentlemanly managers. It will be their earnest and constant
effort to make the place an attractive rendezvous for all lovers of books, and all interested in novelties
and the latest styles of goods in their line. Among the many specialties may be mentioned Fine
Stationery, Artistic Printing, Engraving, Wedding Invitations, Fairs, etc., etc. All the Popular
Books promptly received as published.
SALE OF STOCK. In the erection of our new building, spacious vaults have been constructed
absolutely fire-proof, dry and secure. We are prepared to receive, at a reasonable charge, boxes of
silver-ware, trunks containing valuables, and other articles, to which the owner can at all times have
access. Out-of-town patrons can send us their valuables with every confidence that the strictest care
will be taken of them.
